

Clara Von Berg

Staff Site Reliability & Global Infrastructure Lead

clara.vonberg@infra-lead.ch · +41 22 555 0303 · Zurich / Remote

PROFESSIONAL SUMMARY

Staff SRE with 9 years experience running multi-region hybrid-cloud infrastructure for mission-critical financial networks. Specialized in multi-cluster Kubernetes orchestration, Linux kernel tuning, GitOps, and chaos engineering. Reduced global Mean Time To Recovery (MTTR) from 45 minutes to 2.8 minutes across 14 geographic zones.

CORE TECHNICAL COMPETENCIES

Kubernetes ? Linux ? Terraform ? AWS ? Prometheus ? Grafana ? eBPF ? Docker ? Go ? Python ? Chaos Engineering ? OpenTelemetry

WORK EXPERIENCE & IMPACT

Staff Site Reliability Engineer & Tech Lead · Helvetia Financial Exchange (2020 - Present)

- Owned 99.999% availability SLA for high-frequency crypto and equities settlement platform processing \$8B daily.
- Built automated chaos engineering framework continuously injecting simulated AZ dropouts and network partitions.
- Scaled multi-cluster service mesh across 180+ Kubernetes nodes using Cilium eBPF networking.

Senior SRE / DevOps Lead · Datadog (2016 - 2020)

- Led telemetry pipeline scaling to ingest 450M metrics/second with zero data loss.
- Designed and enforced blameless post-mortem operational culture and SLO/error-budget frameworks.

EDUCATION & CREDENTIALS

M.Sc. in Distributed Computing · ETH Zurich (2016) · B.Sc. in Computer Science · EPFL (2014)
