

Ethan Brooks

Senior Full-Stack Software Engineer

ethan.brooks@example.com · (415) 555-0142 · San Francisco, CA · [github.com/ethanbrooks](#)

PROFESSIONAL SUMMARY

Full-stack engineer with 5 years experience building performant web applications and microservices using React, TypeScript, Node.js, and PostgreSQL. Experienced in Docker containerization, REST/GraphQL APIs, and Agile CI/CD workflows.

CORE TECHNICAL COMPETENCIES

React ? TypeScript ? Node.js ? PostgreSQL ? Docker ? Redis ? GraphQL ? REST APIs ? Jest ? Git

WORK EXPERIENCE & IMPACT

Senior Full-Stack Developer · Nexus Systems Inc (2022 - Present)

- Engineered responsive customer portal in React and TypeScript serving 120k monthly active users.
- Built low-latency Node.js microservices with PostgreSQL and Redis caching, cutting latency by 32%.
- Maintained automated unit testing suite with Jest achieving 88% branch coverage.

Full-Stack Developer · Vanguard Web Labs (2019 - 2022)

- Developed RESTful backend endpoints in Express.js and integrated Stripe checkout flows.
- Collaborated with product designers to implement pixel-perfect mobile-first design systems.

EDUCATION & CREDENTIALS

B.S. in Computer Science · University of California, Davis (2019)
