

Lucas Silva

Senior Backend Systems Engineer

lucas.silva@coder.net · (512) 555-0211 · Austin, TX · github.com/lucassilva-dev

PROFESSIONAL SUMMARY

Backend specialist with 6 years experience architecting distributed services in Golang and Python. Deep expertise in PostgreSQL performance optimization, Kafka event streaming, gRPC communication, and high-concurrency architectures.

CORE TECHNICAL COMPETENCIES

Go ? Golang ? Python ? PostgreSQL ? Kafka ? gRPC ? Docker ? Redis ? Microservices ? Linux

WORK EXPERIENCE & IMPACT

Senior Backend Engineer · Hyperion Commerce (2021 - Present)

- Architected high-throughput order processing engine in Golang handling 25,000 orders/minute.
- Integrated Apache Kafka event streaming to decouple payment verification and inventory updates.
- Optimized PostgreSQL complex queries and connection pooling, reducing database CPU load by 40%.

Backend Developer · FinStream Technologies (2018 - 2021)

- Developed Python Django REST APIs for consumer credit card transaction notifications.
- Implemented Redis cache invalidation strategies and monitored transaction failure queues.

EDUCATION & CREDENTIALS

B.S. in Computer Science · University of Texas at Austin (2018)
